

## Hand metal detector, „SuperWand“ Art.-No.: 170012

*The SuperWand's exclusive 360 detection field provides uniform sensitivity and to pinpointing to detect weapons and other metal objects with extreme accuracy. From Airports to sport events, the SuperWand is the ideal tool of choice.*

### A revolutionary design Special features

- Precise detection of all metal objects.
- Sleek design allows 360° all around detection and Tipp pin pointing.
- Simple and comfortable use by on-switch operation and three LED indication lights.
- The ergonomic designed handle fits in every hand.
- The rugged housing with embedded probe gives special shock resistance.
- Selection between audio and vibration alarm and simultaneous red light.
- 9V Battery (included) for approx. 80 cont. use. Optional rechargeable battery with battery charger and belt clip.
- Optimized sensitivity with automatic base tuning. No manual calibration required.
- No tools necessary for changing battery.
- 24 month warranty.

List of approvals and certificates on request

### Tech. Data

Operating frequency	95 kHz	3-Way Smitch	ON (Loudspeaker/LED)
Operating temperature	-37°C up to 70°C		OFF
Humidity	95% non-condensing	Battery	ON (Vibration/LED)
Audio frequency	2 kHz	Dimension:	9V (included)
LED alert lights:		Weight:	450 g
Red:	Alarm	Width:	83 mm
Green:	Power ON	Depth:	32 mm
Orange:	Battery LOW	Length:	483 mm
Indications:		Tuning	automatic
Acoustic:	Loudspeaker and LED	Search length	230 mm
Silent:	Vibration and LED
