and
Lock breaker with cutting claw
Art.-No.: 170494

ALLEN  VANGUARD™

These two heavy duty tools are designed for rapid intervention operations. Each tool has a sharp tapered pike that can be inserted behind locks and latches and a wide "duckbill" shaped wedge for levering open doors and windows.

The lever claw model also has a forked claw that is designed to fit over locks and hasps. Alternatively, the metal cutting model has a can opener shaped claw for cutting openings in vehicles and metal containers.

Length of pike	120 mm
Length of wedge	150 mm
Total length	763 mm
Weight	5 kg
